Configueres-uc001, a simple relation between 2 objects
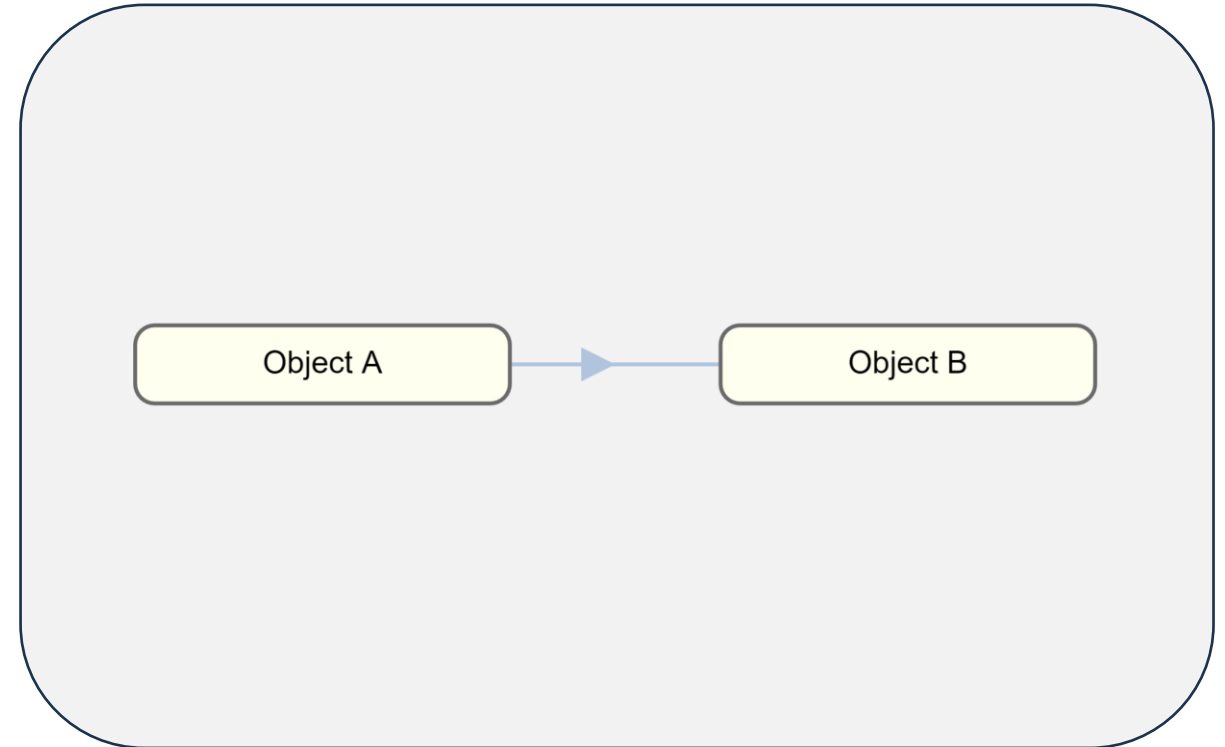

Preconditions:

➢ an Excel file exists with two tabs (worksheets), called "*objects*" and "*relations*"
➢ worksheet "objects" has two columns "*Object ID*" and "*Object name*"
➢ worksheet "relations" has the following columns: "*Relation ID*", "From", "Relation type", "To"

Use case steps:

(a) Create 2 objects: Object A and Object B
(b) Create a relation "consists of" between Object A and Object B

objects

Object ID	Object name
OBJ-0001	Object A
OBJ-0002	Object B

relations

Relation ID	From	Relation type	To
REL-0001	Object A	consists of	Object B
